## WILSON ASKS ROAD PRESIDENTS TO COME

WANTS HEADS OF COMPANIES TO CONFER WITH HIM IN WASHINGTON.

### TO REACH "ULTIMATE AUTHORITY"

If Presidents Haven't Absolute Power Financiers Are To Be Called.

(Associated Press)  
Washington, Aug. 17.—President Wilson today invited the presidents of the principal railroads of the country to come to Washington immediately. Pending their arrival he does not plan to see the committee of managers here, with whom he has been meeting.

#### Sent Them Telegrams.

The president's telegrams to the leading railroad presidents said: "The discussion of matters involved in the threatened railroad strike have reached a point which makes it highly desirable that I should confer with you at the earliest possible moment, and with the presidents of any other railroads who may be immediately accessible. I hope you can make it convenient to come to Washington at once."

#### Speculate On Results.

The president's action is interpreted as meaning that the managers' committee has flatly refused to concede the eight hour day, but are willing to arbitrate the question and all others before any tribunal the president and the men may decide upon. The men are willing to arbitrate some questions under certain conditions. At 3 o'clock this afternoon Wilson will present his plan to the full committee of 640 employees in hope of getting them to approve it. The result will be presented to the railroad presidents later.

#### May Call Financiers.

In case Wilson finds any of the presidents cannot speak absolutely their roads he may invite to the White House the financiers who control them. The president, officials say, wants to deal with "ultimate authority" on both sides in order that the negotiations may be conducted here.

Washington, Aug. 17.—Out of the deadlock between the railroad managers and the brotherhood leaders a new proposal appeared for a special commission to consider not only the present wage dispute but all others in the future.

While President Wilson, the managers' committee and the spokesmen for the men awaited the arrival of the employees' committee of 640, for the next White House conference, administration officials and the representatives of the two sides considered the commission idea with a degree of seriousness which indicated it would come into the negotiations as one of the next steps in the president's attempt to avert a nationwide strike.

It was realized on all hands, however, that the proposal was merely in the status of a suggestion which must pass the test at further conferences with the president.

Would Fix Responsibility.  
President Wilson decided to postpone further conferences with the representatives of the railroads and employees.

## M'Alpine Given Contract To Construct New Dam At Oregon For I.N.U. Company

Ogle Co. Republican: The hole in the dam that came when a section of the cribbing went out with one of the heavy rains of a few months ago, has been giving some of the pessimistic friends great alarm. They induced themselves to believe that the City of Oregon sunk \$6,999 of the city's money in the dam last year—which is lost and the dam is now worse than ever. The truth is the city has been reimbursed for this \$6,999—and better yet—the Illinois Northern Utilities Co. have let the contract of the building of a new concrete dam, at a cost of \$76,000 and the contract stipulates that work must begin by September 1st.

Leeds, Eng., Aug. 2, 1916.

Friend Henry:

Here I am at last in the large city of Leeds, about 500,000. This is a half holiday here, we have Wednesday afternoon off the year round. I had a fine trip on the water as the sun shone every day but the first day out and we had a thunder storm, but that did not affect me at all. However two of our boys got sick.

I arrived at Liverpool July 30 at 4 p. m. and we left for London at 7 p. m. on a special train, arriving there at 10:45 p. m., just a little after dark. It didn't get dark here until 10 o'clock London time. I was in London (and it is some city) until Tuesday morning, when I left for Leeds. I will be here about a month, but I do not know where I will go from here, but you can write me here and tell me the news. I could write you the news over here but you would never get it, so my regards to everybody, and look me up on the map and see where I am located.

## GRADE CROSSING WEST OF GALT IS SCENE OF HORROR

### ONE GIRL'S LEGS CUT OFF

Other Occupants of Ill-Fated Machine Were Not So Seriously Hurt.

The lives of two young ladies were snuffed out instantly, a third girl was so badly injured she will probably die and two others were less seriously hurt when North Western passenger train No. 20, eastbound, struck an automobile on the first grade crossing west of Galt at 10:25 o'clock this morning.

The engine struck the auto amid-ship and dragged it and its occupants at least fifteen rods before the engineer could bring the ponderous machine to a stop.

The two who were killed were frightfully mangled, their bodies being mere masses of torn and crushed flesh and bone.

Taken to Sterling.

The dead and injured were placed aboard the train and hurried to Sterling. Miss Webb and Mr. Van Bergen were taken to the Sterling hospital, while Miss Pfundstein's injuries were not serious enough to prevent her being taken to her home. Is just off the press—it is NEW throughout—newly edited, newly compiled, newly printed—with all the NEW WORDS with its pronunciations and definitions brought UP-TO-DATE, with everything pertaining to it the VERY LATEST. Who does not NEED a NEW dictionary?

No book is more useless than an out of date dictionary. No matter how large a book you may own it is unreliable unless it has ALL the NEW WORDS.

## Picture That Tell The Story

Many years have elapsed since the washing machine came into use. During this time manufacturers have encountered and solved many problems. We believe that the washing machine was, until today, largely experimental. Because so many essentials to clean washing are embodied in our device, it stands alone as the STANDARD WASHING MACHINE.

### We Can Prove Our Claims

The WASHKOSH has value built all over it, this fact is plainly evident in every one of its features. It is simple in design strong in construction, safe in operation, and of very few parts each and every one being fully tested and found free from the defects and weaknesses peculiar to many other washing machines. Simplicity—ease of operation—clean washing and no tearing of clothes. "An Ounce of Fact is Worth a Pound of Opinion."

ployes for a day in order to receive  
the general committee of workmen in  
the east room of the White House.

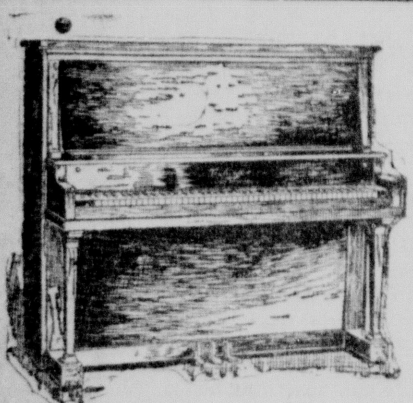

After speaking to the representa-  
tives of the employes, President Wil-  
son may make public his remarks.  
This possibility is regarded as very  
significant of the president's intention  
to make clear the responsibilities  
for plunging the country into a nation-  
wide industrial disturbance and the  
manner in which he has brought it to  
both sides. If the president makes pub-  
lic his remarks, it will be the first dis-  
closure of what has taken place at the  
inside conferences.

It is also probable that the presi-  
dent will make public his remarks to  
the managers in an effort to bring  
public opinion to bear upon the two  
sides. Before giving up hope of forcing  
a settlement it is understood the presi-  
dent will indicate clearly to the coun-  
try the nature of the negotiations so  
the responsibility may be placed  
clearly.

President Plans 8-Hour Day.  
The plan on which the president is  
working is to put into effect the eight-  
hour day and have a federal commis-  
sion investigate collateral issues.

Details of the plan have not been  
worked out, but it is said to be possi-  
ble that if the railroads concede an  
eight-hour day the employers will be  
urged to give up their demand for  
time and a half overtime.

The proposed commission investiga-  
tion would not have the power to en-  
force any decision, but would investi-  
gate all the questions involved in the  
controversy and make recommendations.

## Daddy's Bedtime

How Holland's  
Story — Famous Boy  
Spent His Time.

Painted His Mother  
Over and Over.

"THE neat little country of Holland," daddy began, "has a wonderful  
coast that its brave people have won from a greedy sea. For hun-  
dreds of years they have forced the waves back, back and by their  
clever dikes held it there. So you must please imagine a low, flat  
country without our beautiful hills and valleys, always hanging in blue-gray  
mists that the sunlight has a wonderful way of making look greenish. Next  
to the dikes what you would notice first would be the windmills that grind  
the grain for the little Hollanders' bread."

"Tell us about the children, please, daddy?" asked Jack.  
"I'll tell you about one famous Dutch child instead. He was the son of a  
miller, and from the time he was old enough to toddle away from his mother  
in his little wooden shoes that went 'clap-clap, clap-clap' every time he stepped,  
he spent his time in his father's dim old mill, lighted by only one window,  
which threw a shaft of light upon a few objects and left the rest in deep  
shadow."

"Now, this seems like a very small thing, but you must please always re-  
member what an important part it played in this rare child's fate. But before  
this fate really came to him he spent long hours walking across the gray-green  
Dutch meadows and studying the flowers and plants that grew in the parks  
near the old University of Leyden, close to his home. He loved the river  
Rhine and spent hours watching the ships come and go and the sunlight  
brighten on its waters. When it came time for him to go to college his par-  
ents wished to make a priest of him, but by this time the boy himself knew  
that he wanted to be an artist. This all happened 200 years ago, but this  
dreaming boy who loved to play in the dim old mill with its one sunbeam is  
still known all over the world as one of the masters of light and shadow."

"Who was he, daddy?" cried both children.  
"He was Rembrandt van Rijn, which means Rembrandt of the Rhine.  
So he studied and worked hard, hoping always to be a great artist, and one of  
the first things he painted was his father's old mill. Over and over again he  
painted his mother, sitting so sweet and still with her Bible in her hand.  
What money he made selling his pictures he gave to her, and, moving up to  
Amsterdam, he passed all his long life making beautiful pictures of rooms with  
one light beam across shadows, his mother and the simple, quaint Dutch people  
that he never cared to travel far from. Some day, if you are both good chil-  
dren, I will take you to see a copy of his famous 'Night Watch.' The real one  
is in Amsterdam," daddy promised.

## Before Prices Advance

\$1 Puts the Hoosier in Your  
Home While This  
Allotment Lasts

"Prices must advance" is the official announcement made by the  
Hoosier Company today in the Saturday Evening Post.

This is due to the increased cost of raw materials used in the  
Hoosier. Our allotment at the old price is limited—only a few of  
each pattern are left.

The factory has notified us that 20,000 cabinets were snapped  
up in three weeks when it first became known that Hoosier prices  
must be increased September 1st. You can judge for yourself how  
long our allotment will last.

Your only chance of being sure to get one of these cabinets at  
the present low prices is to come at once before this allotment is  
gone

1. \$1 puts the cabinet you choose in your home.
2. \$1 weekly quickly pays for it.
3. The low cash price fixed by the factory prevails strictly.
4. No interest—No extra fees.
5. This sale is under the direct supervision of the Hoosier Company.
6. Your money back if you are not delighted.

## Why Wish and Wait

You need a Hoosier Cabinet now more  
than at any other time of the year. Your  
kitchen is hot and disagreeable. You have  
extra work to do—canning fruit, making pre-  
serves, and many other things that keep you  
in the kitchen extra hours each day.

Is there any reason why you should spend  
this extra time in the kitchen toiling and  
working in hot weather when it is so easy  
to get your cabinet at once.

## Sale May Close Any Day

Decide right now which is the best  
time for you—

To take chances and miss this op-  
portunity, or

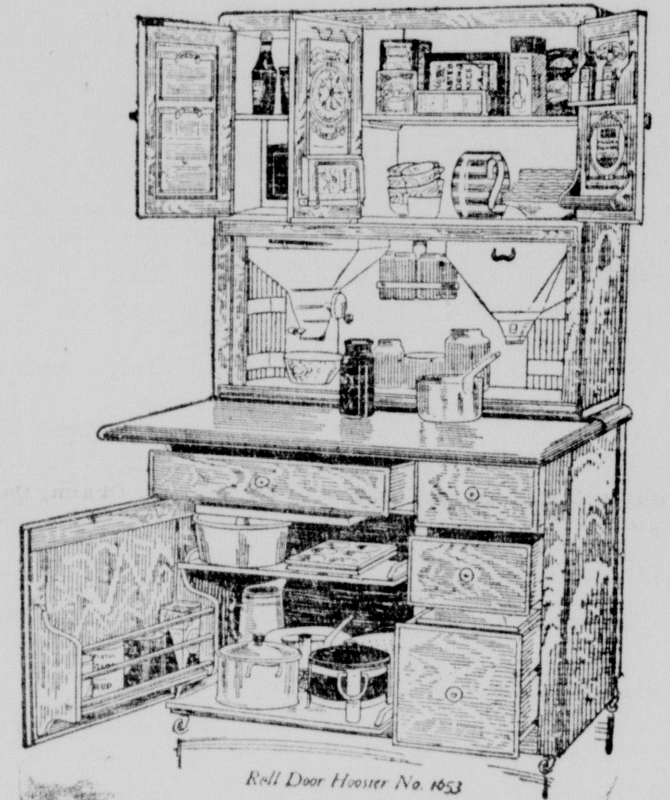

Come to our store at once and find  
out about this cabinet before it is too  
late?

Every Woman Has a  
Right to a Hoosier

Sooner or later, you will probably get the  
cabinet anyway, so why waste your energy,  
health and time by waiting until prices in-  
crease?

It need not take you ten minutes to de-  
cide once for all whether you intend to  
buy now or later after prices go up; and you  
are deciding, remember, whether you will  
save many dollars and miles of unnecessary

# Now for 1917

Another new 3400 r. p. m. Chalmers, 7 passengers, 122-inch wheelbase, supreme beauty, \$1280 Detroit  
And the original 3400 r. p. m. Chalmers, doubly refined, amazing performance, 115-inch wheelbase, \$1090 Detroit

Picture a giant of rare strength and ability, and clothe him in fine garments—and you have a mighty good picture of this new Chalmers—

the 1917 3400 r. p. m. Chalmers with the 122-inch wheelbase, double cowl body and French pleated upholstery.

A good day's work was done when they made it. They took as a base the 1916 3400 r. p. m. Chalmers. A car that had 1,000,000 miles of record behind it. And a service mark of 99.21 percent perfect. They didn't touch the 3400 r. p. m. power plant. They stood pat there.

And on this magnificent chassis they laid a body that surpasses the ordinary man's power of expression.

To describe this gorgeous body is like trying to describe a Rocky Mountain sunset. It's impossible.

You get an optic sensation that fills the mind with a picture you'll never forget. Lines—ladies, they're so severely modern that at first the Chalmers people thought they'd have to change them—too far ahead of the procession.

But Mr. Chalmers finally said to go ahead. And he was right, because the first one that sailed up the avenue stopped traffic. Men driving cars actually drove up ahead in front to see what car it was.

And performance—gentlemen! There's never been but one that could touch her—her 3400 r. p. m. sister.

She performs with a laugh. She has never refused me a hill. She has never failed to answer my every whim.

3400 r. p. m. is the reason. But what I like most about her is the perfectly corking body.

I'm going to tell about one little feature of the body, and then you'll have to come and find the rest out for yourself.

It's about the upholstery. Now, there's been reams written and tons talked about upholstery. Some one once measured it in inches. Another described it in curlicue springs. Some one else reduced it to "real hair."

I don't know the thickness of it—and care less; but when I get in the tonneau and sit down I have a feeling that I never want to get out.

It fits the fat man as well as the thin man.

They're long pleats—French pleats—(which say good-bye once and for all time to the "button and biscuit" kind).

She's a real car, gentlemen, and a wonderful value—\$1280 Detroit. You put away in your wardrobe the equivalent of four good suits of clothes, a couple of pairs of ten-dollar shoes, and a five-dollar hat when you lay down the money for her. You save about \$275.

Don't let me forget to call attention to her smaller sister—the 1917 3400 r. p. m. Chalmers with the 115-inch wheelbase.

Because she's a 3400 r. p. m. r, great on the hill, smooth in traffic, full of spunk any time any day.

She's just like her 1916 predecessor. Neither you nor I could tell the difference. And you're dead sure when you buy her because her record is as clear-cut as a cameo—1,000,000 miles of use with a service record of 99.21 percent perfect.

Both cars are ready. If you haven't seen them you've missed a day's treat. Better than going to the art gallery.

Happenings of the Day in Amusements

### PRINCESS THEATRE

Today the Princess will show the fourth and fifth chapters of the "Secret of the Submarine," afternoon and night. Each chapter of this popular novel is crammed with startling surprises, astounding feats and patriotic fervor. Don't miss this real treat. Also on this program you will find Crane Wilbur in "The Fool's Game," upon which the latest Wilbur offering has been constructed. An elderly millionaire has fallen in love with a pretty and youthful face and, to call it his own, he agrees to pay a fabulous and cold-blooded price. Rich, through her marriage, the woman continues her clandestine love with a youth.

Intensely dramatic situations run throughout the play which Mr. Wilbur has named "The Fool's Game." It is a powerful two-act drama produced at the Horsley Mutual Studio with Wilbur starring in the role of the millionaire. There are but two other principals in the cast, the roles being satisfactorily taken care of by Mae Gas-ton and John Oaker.

### GARRICK—CHICAGO

Low Fields will inaugurate the regular season of the Garrick theatre on next Thursday night when he will be seen in his musical success "Step This Way"—coming here direct from the Astor theatre, New York. As a modern version of his former great success "The Girl Behind the Counter," "Step This Way" is said to be the best vehicle Mr. Fields has had for many years. Not only does it give that arch comedian ample opportunity to display his comedy, but it also provides a setting for the excellent cast which Mr. Fields has surrounded himself with. It is headed by John Charles Thomas, while others of prominence are Gladys Clark, Henry Bergman, Marguerite Farrell, Trixie Smith, Virginia Richardson, Peggy Trevor, Algie Fisher, Barnett Parker, Charles Mitchell, Dorothy Leeds and Richard Temple. Then, of course, there is the usual Fields beauty chorus.

The piece is in two acts, the first taking place, as described in the program as the interior of the "Universal" department store in London, on the American plan with the unlimited

scope and ability to furnish everything from a spool of thread to a select society function. The second act is in the garden of the "Jardin de Paris" at the Hammersmith, devoted to the first class entertainment of second class people.

### FRIENDSHIP LODGE

Friendship lodge No. 7, A. F. & A. M., will hold a special meeting this evening at 7:30 o'clock for degree work.

Duquoin, Ill., Aug. 17.—The first rain of any consequence in Southern Illinois in several weeks has fallen. It will be worth thousands of dollars to the farmers. Corn is greatly benefited.

RUSSIAN DRIVE  
NETS 358,602

Austria Paying Terrific Toll in Slav Advance.

NEW LOSSES ARE 1,500,000

Brusiloff's Offensive Goes on—Advance Surpasses Any Move Heretofore Attempted by the Czar's Forces. More Towns Taken—Teutons Continue to Give Way.

London, Aug. 17.—The official announcement by the Petrograd war office that 358,602 Teutonic prisoners have been taken in a little more than two months shows the colossal extent of the Russians' drive against the southern end of the eastern Austro-German line. This statement indicates that the total Austro-German losses since General Brusiloff's offensive was launched amount to almost 1,500,000 men.

Teutons Need Men Most. Compared with this, the extent of territory recaptured by the Czar's troops is almost insignificant, for it is men, and not ground, that the central powers at this time cannot afford to lose.

General Brusiloff's advance, however, continues with rapidity, surpassing any exertions hitherto made by the Russians. According to official advices from Petrograd, the Austro-Germans are falling back, despite their vigorous resistance, along the line from Brzezany, less than fifty miles southeast of Lemberg, in Galicia, almost to the extreme southern point of their front.

Slavs Take More Towns. South of Brzezany the Slavs have occupied the region on the west bank of the Zlota Lipa. On the Bystrzyca the towns of Solovyna and Grzywa have fallen, while in the Carpathians the Russians now hold Jablonitz, just east of the pass of that name, known as "the key to the Carpathians," and two other towns to the south.

Slavs Capture 358,000. The official report on the prisoners taken since the Russian drive began says:

"According to final reports received, the total captures by the troops of General Brusiloff during the operations from June 4 to Aug. 12, in which period the fortified lines of the Austro-Germans stretching from the River Pripiet to the Rumanian frontier were taken, were as follows:

"The number of officers and men, including combatants and non-combatants, taken prisoner and cannon and machine guns taken by the troops of General Kaletnik were 2,884 officers and 107,225 men, 147 guns, 459 machine guns, and 146 bomb and mine throwers; by General Letchitzky, 2,129 officers, 100,578 men, 127 cannon, 424 machine guns, 44 bomb and mine throwers and 35 power carts; by General Sakharoff, 1,967 officers, 87,248 men, 76 guns, 232 machine guns, 119 bomb and mine throwers and 428 power carts; by General Scherbatoff, 1,267 officers, 55,749 men, 55 guns, 211 machine guns, 29 bomb and mine throwers and 129 powder carts.

Four Hun "Red Guns Captured." "Thus the total captured were 7,757 officers, 350,845 men, 405 guns, 1,326 machine guns, 338 mine and bomb throwers and 292 powder carts.

"In addition there were taken a large number of rifles, thirty vests of small gauge railways, telegraphic materials and several depots of ammunition and engineering materials."

PROBE HORSE POISON PLOT. Animals Consigned to Allies Show Evidence of Being Doped.

Fort Madison, Ia., Aug. 17.—Investigation of an alleged plot to poison horses consigned to the agents of the entente allies was begun here by officials of the Santa Fe railway.

The serious illness of a shipment of horses from Kansas City to Fort Madison recently led to the investigation. Officers assert they found evidence which tended to show that the horses had been given poison.

## FEW GUARDSMEN RELEASED

Only Small Per Cent of Enlistment Making Showing of Dependents.

San Antonio, Aug. 17.—It was announced at department headquarters that to date a total of 879 guardsmen have been granted releases under the dependent relative provision.

Officers do not consider this number exceptionally large in view of the fact that approximately 100,000 state troops are engaged in border duty.

Islands' Sale Not Opposed.

Berlin, Aug. 17.—In view of reports that Germany was apprehensive over the proposed sale of Danish West Indies to the United States, the foreign minister, Gottlieb von Jagow, made the statement that the German government was not opposed to such a transfer.

Embargo on Grain Exports.

Baltimore, Aug. 17.—The Baltimore and Ohio railroad announces that beginning at once an embargo will be placed on export grain through the port of Baltimore. Lack of ships was given as the cause for the embargo.

TOO DANGEROUS  
TO OVERLOOK

DIXON PEOPLE WILL DO WELL TO HEED THE WARNING

To have good health, the digestion, heart, lungs and kidneys must work perfectly. When there is any thing wrong with the digestion, heart or lungs, a very noticeable pain gives prompt warning. Kidney trouble is more easily overlooked, however, and too often gains a long start. But kidney trouble does give early signs, and backache, headache, dizzy spells, rheumatic pains, too frequent, scanty or painful urination should not be neglected. When these warnings appear, use Doan's Kidney Pills, the reliable, success, strongly recommended kidney remedy. Assist the medicine by taking things easier, reducing the diet and the use of liquors. A severe attack of kidney disease may be avoided. Doan's Kidney Pills have won the grateful praise of Dixon people. Read this Dixon resident's endorsement.

Mrs. J. L. Fine, 1006 Peoria Ave., Dixon, says: "I have suffered for years from kidney trouble. My back ached and pained so severely that I had to stay in bed. I had headaches and dizzy spells and specks appeared before my eyes. My wrists and ankles also swelled. I procured Doan's Kidney Pills at Leake Bros. Co.'s Drug store and they helped me. They have never failed to give satisfactory results."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fine had. Foster-Milburn Co., Props., Buffalo, N. Y.

Fergus Attorney Quotes Governor as  
Saying "Let the Boys Have It"Chicago, Aug. 17.—"Let the boys  
have it."Quoting this phrase as spoken by  
Governor Dunne, Fayette S. Munro, in  
opening his campaign for attorney-  
general, held the governor responsible  
for the John B. Fergus suits that  
caused such an upheaval in public life  
in Illinois."I called upon Governor Dunne on  
June 8, 1915, to protest against this  
overriding of the constitution," said  
Mrs. Munro. "He frankly told me he  
had a part in the plan, and, as  
against my protests, he stated that he  
intended to sign the bill and let the  
boys have it."
